

HealthRescue Partners HIPAA Privacy Statement

For Medical Records Processing Clients

HealthRescue Partners is committed to protecting the privacy and security of all personal health information that we process in order to provide practice management services to our clients in the healthcare industry. This notice explains our practices with regard to the protected health information (PHI) we receive from our clients for medical records processing as a business associate under the U.S. health privacy law known as HIPAA.

HealthRescue Partners will collect, use, and process PHI only as required or permitted by our Business Associate Agreements and applicable laws, including the Health Insurance Portability and Accountability Act (HIPAA). We maintain reasonable and appropriate safeguards, administrative procedures, and technical security controls to protect this information as required by the HIPAA Security Rule.

If you have questions about privacy or security, please contact the HIPAA Privacy Official named in the Privacy Notice published by your healthcare provider or health insurance plan. If you believe that HealthRescue Partners has not handled your personal information properly, you may also contact our Privacy Office at info@healthrescuepartners.com.
